GENERAL

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. 5520-59--MIS. 894, DATED CAMP MYSORE, 5TH OCTOBER 1902.

ORDER.—Owing to the prevalence of plague in an epidemic form in the City of Mysore, His Highness the Maharaja has, in compliance with medical advice, directed that the meeting of the Assembly of the Representative Raiyats and Merchants at the Mysore City may be dispensed with during the current year.

H. V. NANJUNDAYYA,

The following letter No. O. C. 2-2—4112, dated the 24th April 1902, from the Post Master General, Madras, received with memo No. 2475, dated the 1st May 1902, from the First Assistant to the Resident in Mysore.

2492 In continuation of this office letter No. 69872, dated the 24th March 1902, I have the honor to forward herewith for the information of the Resident and communication to the Durbar, copy of a communication No. L.N.S., dated the 15th April 1902, from the Director General of Post Offices of India to my address, containing his decision on the question of payment of registration fee on parcels posted on Mysore Government Service for delivery within the State. It will be observed that it has been decided that parcels posted on the Service of the Mysore State, should be carried free of all charges on account of postage but that if they are to be registered, or insured, the extra fees should be paid by means of service postage stamp.

Copy of a communication No. Ls-Ns, dated 15th April 1902, from the Director General of the Post Offices of India, to the Post Master General, Madras.

(1) I have the honor to acknowledge the receipt of your letters Nos. 3157 and 3305, dated the 14th and 24th March 1902, respectively, on the subject of the payment of registration fee on registered parcels posted by officers of the Mysore Government and intended for delivery within the Mysore State.

(2) In reply, I beg to say that parcels posted on the Service of the Mysore State should be carried free of all charges on account of postage, but if they are to be registered, or insured, the extra fees should be paid by means of service postage stamps. The action taken by you, as stated in your letter to the Resident at Mysore, was therefore correct.

No. 5612-5651—Mis. 900, DATED BANGALORE, 14TH OCTOBER 1902.

ORDER THEREON.—Communicated to the Heads of Departments and Deputy Commissioners of Districts for information and guidance in continuation of Government Proceedings No. 15626-61—Mis. 3796, dated the 30th May 1893.

2. The Comptroller to the Government of Mysore will be requested to report at the end of each official year the amount spent in the different departments and offices of the State on account of fees for registration or insurance of parcels posted to different stations. The amount so spent for the past three official years should now be reported.

3. The Examiner, Public Works Accounts, is also requested to submit similar reports through the Chief Engineer of Mysore.

4. As regards debiting to office contingencies, the amount spent for registering parcels, etc., the attention of the Comptroller is drawn to Government Proceedings No. 4708-40—Cir. 97, dated the 7th August 1890, paras 2 and 3, which authorize such a procedure.

(2) Correspondence ending with letter No. 1132—47, dated 1st August 1902, from the Inspector General of Education in Mysore, relative to the inconvenience caused by the abolition of the Branch Press at Mysore.

(3) Correspondence ending with docket No. 114, dated 27th August 1902, from the Superintendent, Mysore Government Press, furnishing information on certain points regarding the abolition of the Branch Press at Mysore.

No. 5683-5—G. F. 135-92, DATED BANGALORE, 15TH OCTOBER 1902.

ORDER THEREON.—The Government Branch Press at Mysore, as a separate institution, was abolished by Government Order No. 16516—G. F. 135-92, dated 8th April 1902. This measure was carried out with the view of centralizing the Press work under the immediate supervision of the Superintendent, and of ensuring promptitude, efficiency and economy in the conduct of the printing work of the State.

2. The arrangement, however, has since been found to have caused inconvenience in certain respects. The Inspector General of Education complains that the printing of the works of the Oriental Library which was being done in Sanskrit and under the supervision of the Curator and Pandits of the Oriental Library, has come to a stand-still, that much of the Kannada Translator's work which can best be done at Mysore, where the present Kannada Translator is now stationed, has to be done in an unsatisfactory manner in Bangalore, and that much difficulty is caused in getting printed the examination papers of the Mysore Maharaja's College, Maharani's College and the Normal School, which were formerly being printed at the Branch Press, Mysore. The Inspector General therefore recommends that either the Branch

Press at Mysore be re-established, or that a separate Press be established at Mysore under the control of the Inspector General, called the "Oriental Library Press," or the "Educational Press."

3. The Branch Press at Mysore, besides providing for the execution of the special works referred to above, served also as a useful auxiliary to the Central Press at Bangalore, work being sent thither, when there was pressure in the latter. It was also very useful when Government went to Mysore during the Dasara and other occasions. After a careful consideration of the circumstances, therefore, Government are pleased to direct that the Branch Press at Mysore be re-opened at once and work be carried out in it as before.

4. The Superintendent, Government Press, is requested to make all needful arrangements for giving effect to the foregoing orders and report the financial result for the orders of Government. It is believed that, in making these arrangements, it would be possible to give employment to the officials and servants who were thrown out when the Branch Press was abolished.

Correspondence ending with the Chief Engineer's letter No. 2313, dated the 23rd April 1902, suggesting that the supply of crockery, cutlery etc., to the travellers' bungalows in the State may be transferred to the Revenue Department which has been already entrusted with the supply etc., of furniture to them; and forwarding for information a copy of letter received through the Residency, containing a complaint from Rev. J. A. Vanes of the Wesleyan Mission, about the bad state of things in the Chitaldrug travellers' bungalow where there was hardly any crockery or cutlery for the use of the travellers although first class bungalow fees were being levied.

Order No. 11922-29—Mis. 15-96, dated 21st January 1902, desiring Deputy Commissioners to furnish complete lists of furniture and other kinds of articles belonging to the several bungalows in each district and to state exactly what is now required together with the cost involved.

No. 5690-5729—G. F. 15-96, DATED CAMP MYSORE, 15TH OCTOBER 1902.

ORDER THEREON.—The supply of furniture etc., to the travellers' bungalows in the State having been made over to the Revenue Department, *vide* Government Proceedings No. 985-94—G. F. 15-96, dated 18th July 1899, the Government have no objection to the supply of crockery, cutlery etc., to them, being likewise transferred to the same agency, provided the Public Works Department who are now in charge of it, undertake to help the Revenue Department in prescribing the standards of articles required and in attending to any requisitions that may be sent to them by the Deputy Commissioners of Districts in the matter.

2. The Deputy Commissioners of Bangalore and Shimoga have failed to furnish information on the points referred to in the order read above; they should do so without further delay.

3. The Deputy Commissioner of Chitaldrug is requested to note the complaint referred to, as having been made by Rev. J. A. Vanes, in the Chief Engineer's letter read above and to give his particular attention to the bungalow in question.

(1) Letter No. 4700—333, dated 24th April 1902, from the Officiating Inspector General of Police in Mysore, submitting his travelling allowance bill for February 1902, audited by the Comptroller for Rs. 59-10-0, and requesting sanction to the value of a free pass used by him from Bangalore to Benkipur, viz., Rs. 9-15-0, deducted by the Comptroller from his travelling allowance, under Article 543 of the Mysore Service Regulations.

(2) Correspondence on the subject ending with letter No. 889—67, dated 4th September 1902, from the Inspector General of Police in Mysore.

No. 6097-8—P. & A. 436, DATED BANGALORE, 22ND OCTOBER 1902.

ORDER THEREON.—As Mr. B. K. Venkatavaradiengar, Officiating Inspector General of Police, was in receipt of a permanent monthly travelling allowance and had drawn the same in full for the month, the Comptroller was right in deducting under Article 543 of the Mysore Service Regulations, the value of a free pass used by him from Bangalore to Benkipur. But Mr. B. K. Venkatavaradiengar represents that his predecessors in office drew their permanent monthly travelling allowances without making any deduction under Article 543 of the Mysore Service Regulations, although they used free passes and requests that the same concession may be shown to him.

2. As his predecessors in office suffered no deduction though inadvertently and for reasons which it is now inexpedient to explain, the Government are pleased to direct that Mr. B. K. Venkatavaradiengar be allowed, in this particular instance, to draw his travelling allowance without the deduction made by the Comptroller for his using a free pass from Bangalore to Benkipur. The Comptroller and the Inspector General are requested to see that the rules are hereafter strictly followed and the necessary deduction is made under Article 543 of the Mysore Service Regulations whenever free passes are used by the Inspector General of Police or any other Officer of the State.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

(1) Letter No. 480-1—20, dated 15th July 1902, from the Inspector General of Education in Mysore.

With reference to Government Order No. 526-6½—Ed. 12, dated the 11th July 1902, sanctioning the continuance of the monthly grant of Rs. 20 in aid of the English School at Sosale, and observing that annual renewals of this kind are inconvenient and that some permanent arrangement seems desirable, I have the honor to state that as the continuance of the grants-in-aid of English and Sanskrit Schools in villages is subject to pre-payment by the people of their share of the cost of such schools at the expiration of a year, no arrangement which will hold good for a longer period than one year seems feasible. The people will feel it a real hardship to be asked to pay in advance more than a year's contribution and this fact makes it unavoidable to renew the grants annually. Since, however, Government think the present arrangement inconvenient, I would propose that when once a grant is sanctioned by Government and provided in the budget, the Inspector General may be empowered to renew it annually at his discretion, on the people paying their contribution towards the cost of the school. This seems to be the only course by which the inconvenience referred to in the order may be removed.

(2) Letter No. 1098—337, dated 29th August 1902, from the Comptroller to the Government of Mysore.

With reference to your docket No. 2811—Ed. 62, dated 27th August 1902, forwarding for opinion copy of letter No. 480-1—20, dated 15th July 1902, from the Inspector General of Education, re empowering him to renew in subsequent years the grants once sanctioned by Government and provided in the budget in aid of private English and Sanskrit Schools opened in rural parts. I have the honor to state that in the budget the provision may be repeated and the appropriation of the grant made only on a certificate that the people's contribution has been realised and credited.

No. 5578-9—ED. 132, DATED 13TH OCTOBER 1902.

ORDER THEREON.—In the circumstances explained by the Inspector General in the first of the letters read above, Government consider that a permanent arrangement in the matter of grants-in-aid to English and Sanskrit Schools opened in rural parts is not feasible. They are therefore pleased to empower the Inspector General of Education to renew, in subsequent years, at his discretion, grants once sanctioned by Government and provided in the budget, provided always that the contribution from the persons to be benefited is levied in advance and credited into the Government Treasury and a certificate to that effect is furnished to and recorded by the Inspector General.

READ—

Letter No. 24—1, dated 2nd July 1902, from the Inspector General of Education in Mysore, submitting the budget estimates of the Industrial School, Mysore, for the year 1902-03, with the following explanatory memo:—

MEMO ON THE BUDGET ESTIMATES OF THE GOVERNMENT INDUSTRIAL SCHOOL, MYSORE, FOR 1902-03.

LOCAL FUNDS GENERAL.

RECEIPTS.

(1) In view of a larger outturn of work in the several Departments of the School and especially in the Pottery Department, which the Superintendent expects in the coming year, an increase in the receipts for 1902-03, amounting to Rs. 4,690 as detailed in the budget estimates, is adopted. The estimated income is raised from Rs. 2,515 for 1901-02 to Rs. 7,205 for 1902-03.

EXPENDITURE.

(2) The total estimated expenditure for 1902-03 is Rs. 18,734, against Rs. 17,219 for 1901-02. As the work of the Industrial School was for a long period interrupted by the outbreak of plague during the year at Mysore and for other reasons, only small portions of the sanctioned provisions under the different heads were utilised last year. The expected improvement in the working of the pottery and all other departments renders a larger provision necessary under the heads of materials and temporary establishment in the budget for 1902-03.

(3) Under I—Machinery and Tools, the provision for the Pottery Class is raised from Rs. 550 to Rs. 800 to meet the cost of renewing the cast-iron socket of the flooring tile-press, providing three orifice plates for the double chamber machine for making tiles both for flooring and roofing, and getting out from England two sets of roofing and ridge tile dies. The other items have been reduced considerably, the total decrease under the head being Rs. 147.

(4) Under II—Materials, the provision for the purchase of iron, steel and brass is increased from Rs. 600 to Rs. 800, as a larger quantity of these metals will be required in the current year for making iron-safes, camp cots, chairs and ploughs, which it is proposed to keep in stock for sale. Similarly the provision for clay, quartz, etc., is increased from Rs. 500 to Rs. 620, for manufacturing tiles and ornamental flower pots, and modelling terra-cotta balustrades. A larger quantity of fuel will be required for burning tiles and pottery than in 1901-02, and accordingly the provision for fuel is raised from Rs. 500 to Rs. 1,150. Rs. 700 is provided for timber against Rs. 1,000 in 1901-02. The amount for purchasing screws, nails, etc., is reduced from Rs. 300 to Rs. 200. The net increase under the head is Rs. 570.

(5) The provision for scholarships remains unaltered.

(6) Under head IV—Rent, etc., the provision for house-rent is struck out, as the Industrial School is held in a Government building. For burning articles of earthenware, one Hoffman's Circular Kiln has to be built and the cost is estimated at Rs. 750, which is accordingly provided. The net increase under this head is Rs. 300.

(7) Under head V, the amount provided for office and school furniture in the budget for 1901-02, was not utilised and the provision is accordingly repeated in the budget estimates for 1902-03. The amount for drawing materials is reduced from Rs. 150 to Rs. 100 and that for sundries raised from Rs. 200 to Rs. 225, the net decrease under the head being Rs. 25.

(8) Under head VI—Wages of temporary establishment, there is a net increase of Rs. 548 due to a larger provision being made for wages to coolies to be employed for tile manufacture on a large scale, and to the reduction of certain items under the head.

(9) The increase of Rs. 300, under head VII—Establishment, is due to the increment of Rs. 25 a month payable to the Superintendent.

(10) For the Night Classes Rs. 133 is entered against Rs. 194, for 1901-02, as the services of a Tamil Teacher have been dispensed with and the contingent charges are reduced from Rs. 50 to Rs. 25.

(11) Rs. 150, the amount sanctioned for travelling allowance, is repeated for 1902-03.

No. 5606-7—ED. 4-96, DATED BANGALORE, 14TH OCTOBER 1902.

ORDER THEREON.—In the budget submitted by the Inspector General of Education with the letter read above, the "Receipts" and "Expenditure" of the Industrial School, Mysore, for 1902-03 are estimated as follows:—

	Sanctioned estimates for 1901-02.	Proposed estimates for 1902-03.	Difference.	
			Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Receipts	2,515	7,205	4,690	...
Expenditure	17,249	18,734	1,485	...

2. *Receipts*.—The increase of Rs. 4,690, anticipated under "Receipts" is due to a large outturn of work expected during the year in the several Departments of the School and especially in the Pottery Department. The estimates are accepted.

3. *Expenditure*.—The amount estimated by the Inspector General on account of the different items under expenditure were closely scrutinized and certain reductions amounting to Rs. 2,673 (*vide* statement A attached for details) have been effected, thereby reducing the total estimated expenditure from Rs. 18,734 to Rs. 16,061, which is passed.

4. The usual budget statements are appended and an abstract thereof is given below:—

JUDICIAL

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Correspondence ending with letter No. 184, dated the 21st August 1902, from the Inspector General of Registration in Mysore, on the subject of the interpretation of Sections 24 and 34 of the Indian Registration Act.

No. 5331—J. 447, DATED BANGALORE, 3RD OCTOBER 1902.

ORDER THEREON.—The Government observe that the correct interpretation of the provisions of the Registration Act in regard to the time allowed for presentation of documents and the appearance of executants or their representatives and the levy of penalties for late presentation and appearance is as follows:—

2. Under Section 23 of the Act the normal period allowed for *presenting for registration*, a document executed in Mysore is four months from the date of execution. But if urgent necessity or unavoidable accident is proved then an additional four months or eight months in all are allowed under Section 24 on payment of a penalty.

3. Under para 1 of Section 34 the time normally allowed for the *appearance of the executant* (or his representative) before the Registering Officer is the same as that prescribed for presentation, that is to say, either four months or eight months according as the case falls under Sections 23 or 24. No additional penalty is leviable. But if urgent necessity or unavoidable accident is proved to have delayed the appearance of the executant then a further period of four months is allowed for that purpose, under the proviso to Section 34 but on condition of payment of a penalty for the late appearance. Thus the extreme period for appearance is *eight months* in case the document is presented under Section 23 and *twelve months* in case it is accepted under Section 24; and the penalty imposed in the latter case is in addition to the penalty recovered under Section 24.

4. If the practice hitherto followed be not in accordance with the above remarks it should be modified.

H. V. NANJUNDAYYA,

Secy. to Govt., Gen. & Rev. Depts.

Report on the Administration of Police in the Mysore State during the official year 1900-01, received with letter No. 2760-211, dated 4th December 1901, from the Inspector General of Police in Mysore.

No. 5952-90—J. 506, DATED BANGALORE, 18TH OCTOBER 1902.

ORDER THEREON.—There was a notable increase of 707 in the number of cognizable cases reported to the Police during the year under review and it is attributed generally to the rise in the prices of food grains. The increase was the largest in the Kolar Gold Field Circle, where however a better system of registration of cases is reported to have prevailed during the year.

2. The percentages of convictions in the more important cases of heinous offences were better in some respects than those of the previous year, but considering

the number of cases accepted as true by the Police, they are capable of still further improvement. It is a matter for satisfaction that both the accused were successfully prosecuted and convicted in the unfortunate case of poisoning of children at Hole-Narsipur by arsenic powder, an account of which is given in para 37 of the report.

3. In connection with the dacoities committed towards the close of 1900 and the beginning of 1901, it is noted that Mr. L. Krishna Rao, Assistant Superintendent of Police, very creditably arrested near Kadri a number of persons concerned in these crimes and that these were convicted in the Chief Court Sessions.

4. The statement given in para 32 of the results of Police work throughout the State, as compared with those of the past 9 years, is interesting. While the percentage of convictions to cases investigated is fair, that of convictions to arrests made requires improvement. This latter remark applies also to the percentage of property recovered to that lost.

5. Among those put up for trial, the presence of 255 old offenders perhaps points to the inadequacy of the previous punishments awarded. In Sessions Cases, more intelligent action appears to be necessary on the part of the Police than at present. It is hoped that the Inspector General of Police has completed the consultation with the Deputy Commissioners to which he refers in para 21 of the report on the subject of enabling higher officers of Police to take part in the prosecution of Sessions Cases. Besides, the bulk of the work of the investigation, it is observed, is thrown on dafadars, and it is not known why intelligent jamadars are not more often utilised for this kind of work. The repeated orders of the Inspector General on this point do not seem to have produced any appreciable effect.

6. The number of non-cognizable cases referred to the Police for investigation shows a diminution, and it is hoped that this diminution is due to the sparing use made of this power by the Magistrates.

7. The number of processes in the Shimoga District was disproportionately large as compared with the numbers of the other districts. It is not known whether there is any difference in the method of issuing the processes.

8. In para 28, information as to the caste of the persons among whom the infant marriages took place, whether widow marriages were permissible in their community or whether special reasons existed, would have been interesting. Similarly in para 30, a brief statement of the motives and circumstances which led to the committing of suicide on the part of the persons concerned, might have been given.

9. The Government agree in the observations of the Officiating Inspector General of Police regarding the necessity for increased attention on the part of Police officers towards the enforcement of the preventive sections of the Criminal Procedure Code.

10. The percentage of literate men in the ranks of the Police during the year showed an increase, being the highest for the past ten years. It is hoped that the departmental punishments awarded to the Police, will, as explained in para 51, tend to improve the *morale* of the force and their effect will be to afford fewer occasions for inflicting them in the future. The decrease in the number of promotions was, it is hoped, due to lack of vacancies, and not to their remaining without being filled up. In this connection it is noted that the number of acting men employed in the grade of constables in the Bangalore City was comparatively very large and no explanation has been given for the same.

11. The Government are disappointed to learn that the Deputy Commissioner of Hassan did not inspect a single Police Station or Ukad during the year; the inspection work done by the other Deputy Commissioners also was far from sufficient; and Government trust that increased attention will be paid in the future to this important part of their duty. The touring of Superintendents and Assistant Superintendents was fair, and among these Messrs. C. Narayana Rao, Zahiruddin Meccai and N. Subba Rao are the only officers who inspected all the stations in their charge.

12. Looking at the report as a whole, Government are constrained to observe that it is wanting in personal interest. It would add to its usefulness and tend to stimulate all ranks if good work by individual officers were brought to the notice of Government by the Inspector General, so that they might have an opportunity of expressing their approval.

Proceedings of the Government of His Highness the Maharaja of Mysore,

EAD—

Notes of Proceedings of a Conference held in the Public Office Buildings at Mysore on Monday 13th October 1902, in connection with measures for the prevention of Plague in Mysore.

The following gentlemen were present :—

- Mr. C. Sreenivasengar, Member of Council.
- Col. P. H. Benson, I.M.S., Senior Surgeon and Sanitary Commissioner.
- Mr. H. V. Nanjundayya, Secretary to Government, General and Revenue Departments.
- „ H. H. Sparkes, Deputy Commissioner, Bangalore.
- „ M. S. Narayana Rao ditto (on leave.)
- „ M. Narain Rao ditto Chitaldrug.
- „ F. E. C. Carr ditto Kolar.
- „ B. G. Krishnaiengar ditto Kadur.
- „ C. Devaraj Urs ditto Hassan.
- „ K. P. Pattanna Chetti ditto Shimoga.
- „ K. S. Dorasami Iyer, Officiating Deputy Commissioner, Tumkur.
- „ M. Kantaraj Urs, Sub-Division Officer in charge of the Mysore District.
- „ P. S. Achyuta Rao, Civil Surgeon, Mysore.
- „ Palpu, Health Officer, Bangalore City.
- „ E. S. Krishnaswami Iyer, Civil Surgeon, Kolar Gold Fields.
- „ T. V. Kuppusami Mudaliar, Plague Officer, Mysore.
- „ Kodandapani Mudaliar, Health Officer, Mysore.

After a preliminary discussion regarding the past plague policy of Government, the measures now being enforced in different places and the diversities therein, and the principles that should guide plague administration in the future, the Conference ultimately arrived at the following conclusions :—

Observation.—It is very desirable to make it obligatory on all persons arriving at any Municipal town, before infection has taken place there, to present themselves for observation for a period of ten days from receipt of a passport to be issued to them. After a certain number of indigenous cases, say, twelve or fifteen, have occurred in the town, the observation system may be discontinued.

As regards places which are not Municipalities, the Deputy Commissioners should make the best arrangements possible for the observation of new arrivals. The undesirability of allowing into such places people from outside without proper observation should be impressed upon the inhabitants; as also the safety that lies in prompt evacuation. It is believed that both these points are already in a large measure realised by the generality of our rural population.

Segregation.—Under the orders of Government No. Pg. 1874, dated the 27th June 1899, the compulsory removal of patients and contacts to Hospital or Camp is permissible in the early stages of plague. This is also in accordance with the views of the Government of India expressed in paras 25 and 26 of their Resolution of 16th July 1900. This should be enforced as far as possible.

Evacuation.—Every endeavour should be made to impress upon the inhabitants of infected towns the desirability of evacuating them after the first cases of plague.

Building materials.—While it is impossible for Government to undertake the enormous cost which would be entailed if it were itself to undertake to provide houses for all the poor people who are turned out of infected localities, it is recognised that in the matter of the grant of building materials to the extent of reasonable requirements, every possible concession should be shown, bamboos and other materials being given free of cost to the really poor, and at cost price to those who can afford to pay. Also, suitable areas should be acquired in the neighbourhood of towns and marked out as building sites, to be allotted to such persons as may wish

to erect temporary or permanent residences in the event of the outbreak of plague. The sites should be chosen as far as possible with reference to convenience of drainage, water-supply etc., and water should be provided wherever it may be feasible. The cost of acquisition of sites, and of the formation of roads etc., should ordinarily be borne by the Municipalities concerned, special cases requiring a different treatment being reported for the sanction of Government.

Inoculation.—Every endeavour should be made to induce the people to get inoculated before infection. The new serum is an improvement upon the old and no inconvenience therefrom is apprehended.

Disinfection.—The present system of disinfection by means of chemicals should be continued so far as the Cities of Bangalore and Mysore are concerned. Chemical disinfection is considered unsuited to other towns and to villages, owing to cost, difficulty of procuring the necessary agency etc. Whatever may be the process adopted, the disinfection should be thoroughly done. Houses where there have already been cases of plague in previous seasons, should also be subjected to disinfection, as far as possible, before re-infection and with the consent of the householders concerned.

Destruction of Rats.—Increased attention should be paid to measures for the destruction of rats, such as the employment of professional rat-catchers, the offering of rewards to every vermin killed etc., especially in towns in which infection from rats is apprehended.

Information of Cases.—Every householder should be required to notify to the authorities all cases of fever with or without glandular swellings occurring in his house or in his neighbourhood and coming to his knowledge. Information given by persons as regards the first and a few subsequent cases of plague, should be liberally rewarded, say, by amounts varying from one to ten rupees.

Medical Treatment.—Greater facilities should be provided, as far as possible, for the home treatment of plague patients. The system of Hospital Assistants going round treating people in their homes, has been spoken of as both popular and successful. More Hospital Assistants may, if possible, be given wherever necessary.

Sanitation.—Increased attention to this most important subject is particularly desirable. And in order to make more funds available, expenditure on other less necessary items should be curtailed as far as possible.

District Plague Officers.—For each badly affected district, there should be a separate District Plague Officer who should preferably be a Medical man; and in order to give him sufficient influence and prestige, his rank should not as a rule be lower than that of an Assistant Surgeon.

Plague Expenditure.—Every endeavour should be made to reduce the expenditure on plague as far as possible. It should be borne in mind that this is properly a charge upon the funds of the Municipalities concerned, and that Government aid should not be sought unless unavoidable.

Revision of Rules.—The existing rules on the subject of plague administration are cumbersome and difficult to apply, and should be revised and consolidated. Deputy Commissioners have been asked to submit suggestions by the end of this month in view to the needful being done by Government at an early date.

ORDER THEREON.—Copies of the foregoing are forwarded to the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, the Deputy Commissioners of Districts and Presidents of Municipalities, the Conservator of Forests in Mysore and the Comptroller in Mysore, for information and guidance.

Letter No. D. 163, dated the 14th August 1902, from the Deputy Commissioner of the Bangalore District, submitting report of operations in the Bangalore City under Regulation, VI of 1899, for the year 1901-02.

I beg to submit herewith a short report of the work done in Bangalore City under Regulation, VI of 1899, during the year 1901-02.

The procedure adopted in detection and examination of cases was more or less the same as in previous years. The number of cases examined was 54 during the year, of these 14 were found to be infectious and classified as follows:—

Anthrax	...	...	...	...	3
Foot and mouth disease	..	...	..	...	1
Tuberculosis	.	..	..	...	4
Tetanus	..	...	..	...	3

The number of *post mortem* examinations during the year was 13 and that of the Number of *post mortem* and Bacteriological examinations. Bacteriological only 4, 2 of milk for tuberculosis and two of blood for anthrax.

This portion of the work being the most important has occupied a greater portion of my time and has been more searching due to periodical outbreaks of contagious diseases in and out of Bangalore City. The institutions that are to be inspected under Regulation, VI of 1899, are 3 in number viz :—

(a) The slaughter house and meat market.

(b) The dairies in Bangalore City.

(c) The cartstands.

The slaughter house and meat market have been inspected 15 times during the year and various sanitary suggestions for prevention and eradication of epizootics have been given to the Veterinary Inspector in charge. These buildings are, both by their location and insanitary condition, have been a source of great danger for human and animal life.

The stalls where meat is exposed for sale has a V-shaped drain to receive the washings of the place but without any proper outlet, thus permitting the filth to sink in the compound.

The places where animals are slaughtered and exposed all night till they are otherwise disposed of, are simply washed with water, thus exposing the meat to early contamination and decomposition. I would very strongly recommend that these places and the stalls where the internal organs are kept for sale should be doctored and disinfected. The backyard has two stone cisterns to receive the washings from the slaughter house. I have many a time noted that these cisterns are full to overflowing and the wastage finding its way into the neighbouring drain thereby contaminating the air and even the well water in the surroundings. They have at present only one sewage cart to remove the filth which I am of opinion is hardly enough to remove the filth in time so as not to give room for accumulation and stagnation. This subject was brought to the notice of the Veterinary Inspector to be reported to the Health Officer for his advice and necessary instructions in the matter.

The fold where sheep that come from different parts of the Province, where some infectious disease or other might have broken out, are brought and huddled together, is a hot bed for infectious diseases and their dissemination, ought also to be thoroughly disinfected and kept scrupulously clean and dry.

I have been visiting these dairies frequently and have invariably found them very insanitary. In most of these dairies the cattle are picketted to overcrowding in the verandahs or thotties where the floor is paved with slabs which are not properly cemented. Though the urine and faecal matter have been washed off with water daily they have sufficient space, in the cracks of the floor, to stagnate and even sink into the earth and thus the animals are always predisposed for attacks of rinderpest, foot and mouth disease, anthrax and tuberculosis etc. It is no wonder that inmates of such dairies who breathe the same contaminated air and even drink the well water which is contaminated with the excretions of animals, fall an easy prey to such dire diseases as cholera, typhoid, plague etc.

These are found in the various chattrams in Bangalore City. During my inspections I have not only advised and even warned the proprietors to keep the places thoroughly dry and clean, but also to report to the nearest Police Station cases of anthrax, rinderpest etc., among the animals. In spite of my repeated requests they have not been paying any attention to the common rules of sanitation. These places are also hot bed for infectious diseases and their propagation all over the City. Under these circumstances I beg that the Government would be pleased (a) to demolish the City slaughter house and meat market and build a new one at a reasonable distance from the City and on better sanitary principles, (b) to suggest and enforce certain practical sanitary rules for the improvement of these dairies and cartstands.

Rinderpest.—One of the direst and most fatal of the bovine scourges, had hitherto withstood all therapeutical treatment and caused a heavy mortality and loss among cattle and sheep belonging to agriculturists and stock owners at large. Dr. Koch, the greatest of the living Bacteriologists, made a thorough study of this disease in South Africa and found out that *bile from affected animals when injected into animals served both as a curative as well as a prophylactic treatment*. After a series of experiments with Dr. Koch's bile method both in England and India it was found that immunity among the animals was only of a short duration. Drs. Lingard, Rogers and other scientists have tried some more methods of conferring a larger immunity by the *simultaneous* and serum methods. The serum method has been tried in Punjab, Rajputana, Bengal and in Ceylon with very great success (see the report of the Director of Agriculture of these Presidencies). The serum for rinderpest has been prepared on a very large scale at the Laboratory of the Imperial Bacteriologist to Government of India and can be got in large quantities and at a cheap cost. If the Government can kindly permit a trial can also be given in our Province with great success.

Another disease of Pathological interest is foot and mouth disease among cattle and sheep. This disease has been treated with more or less success by therapeutical means. A certain and cheaper cure has been found out by Professors

Bacilli and Morute. This consists in giving an intravenous injection of solution of perchloride of mercury in different proportions according to the size and age of the animals. As foot and mouth disease has been breaking out in almost all the taluks of the Province, a trial may also be given with great advantage.

This subject has attracted the most careful attention of the scientists all over the world (see reports of the Royal Commission on Tuberculosis held in London in July 1901). Dr. Koch, the great German Bacteriologist, was the first to make a special study of this dire disease. He found out the infectious nature of the disease by the detection of Tubercular Bacilli and also tuberculin for testing tuberculous animals with latent forms of this disease. He was of opinion after a series of experiments that animal (Bovine) tuberculosis was easily communicable to human beings through meat and milk of tuberculous animals. This was confirmed by other scientists too. Dr. Koch at the last "Royal Commission on tuberculosis" held in London startled the whole world that animal tuberculosis was quite different from human Tuberculosis and that milk and meat from infected animals were not vehicles of contagion (this is contradictory to the statement made by him 20 years ago) but continental scientists are opposed to Dr. Koch's opinion. They assert and even prove that animal tuberculosis is communicable to human patients etc.

I am of opinion that the public should be warned against the risk they are running into by using raw milk as food both for infants and adults. It is always safe to boil the milk well before use, even if it has been drawn from healthy looking cows. With regard to tuberculous meat there is not such danger as it is always well boiled before use.

It is gratifying to note that since the passing of the Regulation the public have been very freely availing themselves of the professional help so generously placed at their disposal by the Government and the demand from the labouring classes, viz., the putkavalas and the cart drivers, for a free Municipal veterinary dispensary has been very great. I beg that the Government would be pleased to open a small dispensary in Bangalore City for treatment of cattle and ponies belonging to such people.

In conclusion I have to thank the Superintendent of Police, Bangalore District, and Special Officer in charge, Bangalore City, under Regulation, VI of 1899, for the keen interest he has been taking and for the invaluable help and advice he has been giving me in detection and disposal of infectious cases. I should not forget to mention in this report the hearty co-operation of the Police Officers and men in Bangalore City who have always shown great zeal in carrying out the work so smooth and satisfactorily.

ORDER THEREON.—The orders conveyed in Government Proceedings No. 7044—R. 2309, dated 4th April 1900, and the comparatively large number of Measurers whom the Survey Superintendent has been able to leave with the various Deputy Commissioners after organizing the Measuring establishment required for the Revenue Survey work, render it unnecessary that the shekdars, unless fully qualified and certified to that effect by the Survey Superintendent, should be entrusted with the work of subdividing Survey numbers. To this extent, the orders contained in Proceedings No. 1814 read above are modified. But the necessity continues of improving the standard fitness of the present shekdars in regard to their ability in the measuring of lands as well as in conducting the examination of the boundary marks. From the replies read above, it is observed that out of 460 shekdars in the whole State, only 50 have a good knowledge of land-measuring work, and 95 know a little of it, while the others know nothing of the work. The question of the improvement of the shekdari service and the re-distribution of hoblis is under the consideration of Government. But pending final orders thereon, there is no reason why arrangements should not at once be effected for giving the existing shekdars some training in the land-measuring work and in that of testing the inspection of the boundary marks with reference to village maps. On this point the suggestion made by the Deputy Commissioner of Tumkur seems practical, and it is to the effect that one shekdar in each taluk may be temporarily relieved and placed under instruction, during which time he must be required to learn this work and obtain a certificate of proficiency. The Survey Superintendent thinks that a period of four months is necessary and that the shekdars thus selected should first present themselves before him and obtain his permission to attend the training class attached to his office in Bangalore. He also suggests that four shekdars may be sent from each district at a time. Government approve of this suggestion and accordingly direct that shekdars thus selected may be sent to report themselves to the Survey Superintendent not later than the 15th of November next. During their absence, arrangements will be made to have their work done by the neighbouring shekdar or otherwise without having recourse to fresh appointments and thereby entailing additional cost upon Government. When one batch of shekdars returns, another batch will be sent, and this procedure may be adopted by all the Deputy Commissioners, so that in course of time all those duly qualified among present shekdars may acquire a fair insight into this important work. Government take this opportunity of impressing upon the Deputy Commissioners the great necessity of appointing only qualified men as shekdars. The educational and physical qualifications are of primary importance, and, as already directed, none but those who have passed the qualifying Educational examinations laid down in Government Notification No. 3, dated 12th April 1888, and whose physical fitness is certified by a competent Medical Officer, should be appointed.

READ—

Letter No. 704, dated 7th April 1902, from the Superintendent, Mysore Revenue Survey.

I have the honor to submit for the consideration and orders of Government a few facts connected with the Shekdar Training School.

2. This school, as sanctioned in Government Proceedings No. 3425-33—R. 1122, dated 26th October 1900, was opened on 15th November of the same year. There have been three terms and one is now in progress as below :—

Term commencing		Number of shekdars.	Remarks.
15th November 1900	...	28	Joining irregular.
10th April 1901	...	30	Do
10th September 1901	...	27	Do
15th February 1902	...	20	Joining very irregular.

3. My remarks are called for by the state of things during the present current term. I append a statement showing the number of shekdars and the date on which each joined.

4. It will be seen that of 19 joined, (one has since joined) while the date of joining has been very irregular, the distribution for district is as below :—

Kadur	...	3	Hassan	..	...	2
Mysore	...	3	Shimoga	..	...	1
Tumkur	...	4	Kolar	...	...	3
Bangalore	...	3	Chitaldrug	...	...	0

5. On calling for reasons the Chitaldrug Deputy Commissioner alone explains that owing to Re-Survey work being in progress and to press of work no shekdars have or can be sent. The Shimoga Deputy Commissioner states that it is impossible to send more than 1 shekdar. In the other districts no particular reason is assigned.

6. My object, however, is not to analyze the reasons why these shekdars have not joined but to ask Government whether, under the circumstances, it is worth while continuing this Training School which has already had an initial expenditure of Rs. 100 and cost Government Rs. 150 per mensem (see Government Order No. 4129-30—R. F. 20-98, dated 21st November 1900).

7. It is of course obvious that attendance short of 4 shekdars per district denotes distinct loss, for we are obliged to be prepared for that number.

8. From the commencement 85 shekdars have gone through the course and 20 are now being instructed. I believe some 460 shekdars represent the total strength. That these shekdars derive very considerable benefit there can be no doubt, and from those who attended the first 3 terms there are roughly a dozen whom I would gladly take into my Department and make into good measurers; but I am bound to say that there are none to whom I have been able to give first class certificates that they are, at once, able to measure and indeed I am of opinion that no one who is not a trained measurer should be entrusted with what comes under the head of Survey work.

9. If the School is to be continued, at least 4 shekdars per district should attend and they should be fairly intelligent and not too old—qualifications which cannot in some cases be claimed for those sent this term.

Letter No. 798, dated 15th May 1902, from the Superintendent, Mysore Revenue Survey.

I have the honor to acknowledge receipt of your letter No. 5059—R. F. 20-98, dated 2nd May 1902, on the subject of the working of the Shekdar Training School, Bangalore.

2. The Shekdars' School may I think be closed from the 1st of next month. By that time the few men under instruction will have had a fairly long term. It is evident that selected men are no longer being sent, and the absence of the shekdars from their duties is felt to be inconvenient.

3. Including the men now under instruction about 105 shekdars, presumably picked men, will have passed through the school. Although the subdivision of Survey numbers, in other words actual survey work, has been taken away from the shekdars, I believe that the efficiency of the men who have been through the school will be found to have been enhanced by what they have learnt.

4. I am asked to make suggestions for improving the shekdar service as a whole. To point the few suggestions I have to make I must briefly note the blots in the present system. I will also presume that at present Government is not disposed to re-consider its decision as conveyed in Proceedings No. 2509-17—62, dated 23rd June 1881, on my proposals to abolish shekdars made in my letter No. 359 of the 28th May 1881.

5. The duties of a shekdar are multifarious and for that reason probably, have not been clearly defined. There is no text-book or manual of instructions on which the District or Taluk superior officers can examine him and the shekdar, on his part, might plead that the absence of such a manual unfairly handicapped him. He could not put in such a plea so far as the village accounts are concerned, but there are an immense number of other duties connected with the revenue administration which have never been condensed into a form calculated to reach his understanding, and it is only when the shekdar's work in some particular case is brought prominently to the notice of the superior officer that the latter can form any opinion as to the former's qualifications. The position which a shekdar occupies in the Revenue Establishment is peculiar and places him more than any other Officer out of touch with his superiors. He has not I believe been even made to take up his residence in some carefully selected village of his charge and his "whereabouts" is in my experience very uncertain when his services are required. A useless shekdar, under such circumstances, might go on skimming or evading his duties for a long time before his inefficiency was discovered. One of my reasons for advocating the Taluk Head-quarter system, as I may call it, was that the Amildar could see more of his shekdars who would necessarily be within easy call and daily observation, and could therefore be able to judge individual qualifications.

6. Under such circumstances, some steps should be taken to make the shekdar service on its present footing more efficient, and the questions of improving the status and prospects of the service can be taken up later on. I would suggest:—

1st. The compilation of a "Shekdar Revenue Manual" on the lines suggested by the Committee appointed by Government Proceedings No. 3158-66—R. F. 108-92, dated 23rd September 1897, at paras 14 to 17 of their report. This "Shekdars Revenue Manual" with the "Village Officers Manual" and I may add, the Land Revenue Code itself would constitute text-books. Superior Officers could hold examinations periodically, or as opportunity offered, with the object of getting rid on liberal terms of men injudiciously appointed in the first instance and of maintaining a standard of efficiency amongst the men possessing good natural qualifications, and of regulating promotion of the deserving.

2nd. To ensure the appointment, for the future, of men at least naturally well qualified, a test, before appointment should be prescribed on the lines, leaving out (3), of the Committee's recommendation at para 25 of their report. To the points there noted, I would add age, constitution and physique.

3rd. To insist upon each shekdar living in some selected and convenient village of his charge which should be his Head-quarters where orders should reach him and where he should be held responsible for receiving orders.

4th. The Shekdars Revenue Manual might be entrusted for preparation and submission to Government at an early date by some experienced Revenue Officer, or Officers, whom there should be no difficulty in selecting as the Manual in question would deal with purely Revenue matters and miscellaneous duties belonging to the Revenue Department as fairly summarised by the Committee of 1898.

8. I do not advocate the consideration of the questions of scale of pay, including that of horse allowance, or indeed of status and prospects of the service, until the lapse of a little time under the very simple arrangements which I have suggested. I personally examined all the shekdars who have passed through the school and have intimated results to the various Deputy Commissioners. I was much struck by the inequality of the qualifications of the shekdars examined. None were illiterate but there were a good many wanting in intelligence as well as robustness and physique. On the other hand some of the men were exceptionally smart and intelligent. Of course it is probable that the men who have been through the school were,

excepting the current year's batch, selected as the most promising; indeed from my experience of the shekdars who have not been through the school I am certain such was the case. Everything, so far as my experience goes, points to the early preparation of text books and an examination of the qualifications of the existing shekdars.

9. The report of the very fully constituted Committee of 1898 appears to me to furnish a sound basis for the consideration of all questions relating to the shekdars, service, including the important matter (para 28-39) of shekdars, charges. All that I advocate just at present is the prescription of text books and an early examination of the existing staff of shekdars.

10. As regards the abolition of the Shekdars Training School from the 1st June 1902, or such date as may appear to Government to be right, I would solicit early orders.

(3) Letter No. 890, dated 1st July 1902, from the Superintendent, Mysore Revenue Survey.

I have the honor, with reference to my letter No. 798 of the 15th May last suggesting the abolition of the Shekdar Survey Training School, and on which no orders have been passed, to report that the shekdars, 19 in number, attending the present term, were examined by me yesterday, Monday the 30th June 1902, and have been directed to rejoin their various posts; reports on the progress each has made will be sent to the Deputy Commissioners.

2. Pending the decision of Government as to whether the school is to be abolished, all the maintaining expenditure, excepting rent for building, can be got rid of by the natural cessation of the entertainment of flag and chairmen and of contingencies, and by transferring the two instructors whom I can usefully employ in one or other of the Measuring Establishments. The building at present rented with its surroundings, is of unusual convenience and one so convenient cannot probably be found again should Government decide to continue the school.

No. R. 1500-509—R. F. 20-98, DATED BANGALORE, 4TH OCTOBER 1902.

ORDER THEREON:—The school was started with the object of serving the interests of shekdars already in service by giving them a chance of learning some of the most important parts of their official work. But it has apparently not become popular, and the Deputy Commissioners having pleaded in many cases that 4 men from each District could not well be spared, there was not as large an attendance as would justify the keeping up of an institution at such a cost. Col. Grant favors the abolition of the school more on this ground than on the score of its being not a useful institution. Government feel constrained to accord sanction, though reluctantly, to the proposal to close the school.

2. But very early action should be taken to improve the shekdari service on the lines pointed out by the Survey Superintendent. Besides enforcing the educational qualification already prescribed, care should be taken to select only such men as are active and fit for outdoor work. All the shekdars already in service should be subjected to an examination as suggested by the Survey Superintendent and only men who have passed such an examination should be newly appointed. Till a separate text-book is prepared, the Land Revenue Code and the Land Revenue Rules with the Village Officers' Manual, Tank Maintenance Rules of 1873 and Village Sanitation Rules should form the subject of examination which should be held annually with the other Service examinations.

ORDER.—For some years, the names of Munsiffs as well as of some other Officers who are regarded as not of a higher relative rank than Amildars are being given in the Government Gazette and in official communications with the honorific prefix "Mr." attached. As there is no proper reason to keep up any distinction between them and these other Officers in this respect, Government are pleased to direct that, in future, Amildars when named in the Government Gazette and official communications, shall have the prefix "Mr." added to their names.

The accompanying report on the working of the Agricultural Banks in the State for the year 1900-01 received with letter No. 27, dated 22nd July 1902, from the Inspector of Agricultural Banks.

No. R. 1539-48, DATED BANGALORE, 8TH OCTOBER 1902.

ORDER THEREON.—It is to be regretted that the District Officers did not furnish complete statistics in respect of all the Banks in accordance with the instructions issued in Government Order No. 3663-71, dated 20th February 1902.

2. The number of Banks in operation during 1900-01 was the same as in the previous year, i. e., 61, and no new Banks were started.

3. The number of members was almost the same, being 2,886 against 2,888 in 1899-00.

4. The total receipts, exclusive of an opening balance of Rs. 11,964 at the beginning of the year, amounted to Rs. 2,60,467, and the total expenditure to Rs. 2,60,274, leaving a reduced balance of Rs. 11,857 at the end of the year.

5. Separate orders will be passed in respect of the Chikmagalur and Saklespur Banks.

6. The period allowed for the repayment of Government loans ranges from 2 to 15 years, commencing from 1897-98 downwards. It is hoped that repayments according to the instalments fixed will be strictly insisted on and timely steps taken.

In future reports the following information should, however, invariably be given:—

(1) Total principal advanced by the State.

(2) Total (a) Repayments and (b) Interest—due up to the end of the year under report.

(3) Total of do actually paid up to the end of the year.

(4) Arrears of (a) Repayments and (b) Interest.

7. The balance of deposits rose from Rs. 13,858 to Rs. 15,477 at the end of 1900-01. The Boards of Directors found wanting in the matter of attracting deposits, should be required to show better results.

8. The orders already issued concerning the payment of interest should be properly enforced.

9. Among the institutions that were well managed, the Banks at Tavarekere, Hongenahalli and Kaggala deserve special mention.

10. Government trust that the local officers will strive to improve matters in the other Banks by periodical inspections and attention to orders issued from time to time.

The Ninth Annual Report on Rainfall Registration in Mysore for 1901, submitted by the Director of Meteorology in Mysore with his letter No. 187, dated August 1902.

No. R. 1569-77—R. F. 56-97, DATED BANGALORE, 16TH OCTOBER 1902.

ORDER THEREON.—There were 203 rain-gauge stations against 208 in 1900.

2. The inspection work has again been unsatisfactory. The Deputy Commissioners of Districts (Tumkur and Chitaldrug excepted) will report why due effect was not given to the instructions conveyed in Government Order No. 4400-8—R. 2085, dated 23rd December 1893. The officials dealing with the gauges from time to time should be put in the way properly so that their work may prove reliable and useful.

3. The heaviest rainfall in 24 hours was at Nagar in the Shimoga District on the 9th July 1901, the quantity gauged being 16.20 inches.

4. The largest quantity of rain recorded during the year was 346.58 inches; and this was, as in the two previous years, at Agumbe in the Shimoga District. The smallest quantity gauged was 11.89 inches at Talak in the Chitaldrug District.

5. The average rainfall for the whole State was 39·44 inches, or about the same as in 1900, and 2·53 inches more than the average for the past 32 years, 1870—1901.

6. The District mean rainfall was as follows:—

District.	For 1901.	For 1870-1901.
Bangalore	34·35	29·99
Kolar	27·75	27·58
Tumkur	28·27	26·04

Hassan	39·51	35·94
Shimoga	70·14	66·45
Kadur	61·23	60·74
Chitaldrug	21·38	20·78

7. The statistics of the rainfall according to the 27 Hindu "Nakshatras" as well as the diagrams given are important and interesting, and may be published in Kannada in the Gazette.

8. The Director of Meteorology is requested to distribute copies of the Report as usual and forward 18 more copies to this office.

ORDER THEREON.—In Government Proceedings No. 6825-33—R. F. 6-1900, dated 6th March 1901, the Deputy Commissioners were requested to submit detailed reports regarding incomplete wells and see to their completion before asking for further grants. Accordingly, reports were received from the Deputy Commissioners of Bangalore, Kolar and Tumkur. The Deputy Commissioner of Chitaldrug has not replied notwithstanding the issue of eight reminders. He will now send up the report with explanations for the delay. By his inattention to requisitions so often repeated, he has rendered himself liable to severe criticism. The grant of Rs. 7,500 applied for by him for new applications cannot be sanctioned till the report about incomplete wells is received.

2. For the purpose of granting loans for irrigation wells during the current year, the Comptroller, Mysore Government, is requested to place at the disposal of the Deputy Commissioners sums as shown below :—

Letter No. 264—200, dated 19th September 1902, from the Deputy Commissioner, Shimoga District, regarding the appellate jurisdiction of the Deputy Commissioners over the orders of the Assistant Commissioners placed in charge of the Revenue Administration of one or more Taluks.

No. R. 1621-9, DATED BANGALORE, 17TH OCTOBER 1902.

ORDER THEREON.—The notification conferring powers on the Revenue Commissioner cannot have the effect of repealing or modifying any of the provisions of the Revenue Code or Revenue Rules concerning the powers and relations of other Revenue Officers such as Deputy Commissioners and Assistant Commissioners as between themselves. Rule 2 of the Land Revenue Rules lays down that the Deputy

Commissioner of the District shall be the immediate superior authority of an Assistant Commissioner, and as the Revenue Code makes no distinction between Sub-Division Officers and other Assistant Commissioners, the Deputy Commissioner continues to be the appellate authority over all the Assistant Commissioners, whether placed in charge of the Sub-Divisions usually so styled, or of some specified Taluks of a District.

2. The 2nd para of Section 4 of the Revenue Code empowers the Government to confer upon the Revenue Commissioner any of the powers conferred upon the Government not those conferred on the Deputy Commissioners. The 1st clause of the Notification (No. 37, dated 8th August 1902) which is the same as the 1st clause of Schedule I of the Revenue Code, should therefore be taken to apply only to those cases in which Government may declare under Section 8, para 2, that the Government is the superior appellate authority over Assistant Commissioners. As the Government has not yet made any such declaration, it follows that this clause of the Notification is at present practically inoperative; and continues so till such declaration is made. Under the circumstances, all appeals from the orders and decisions of Assistant Commissioners lie as heretofore, only to the Deputy Commissioner of the District.

2. The attention of the Deputy Commissioners of Bangalore, Mysore, Hassan and Shimoga is drawn to the large number of darkhasts pending for three years and upwards. There should be no further delay in their disposal.

3. The total number of undisposed-of darkhasts in the Tumkur, Mysore, Hassan, Shimoga and Kadur Districts is very large. This calls for prompt action on the part of the local Revenue officers. Further reports on this subject should be submitted to the Revenue Commissioner in Mysore, who is requested to send his periodical reviews for the information of Government.

Correspondence ending with docket No. 1120, dated 2nd September 1902, from the Comptroller, Mysore Government.

No. FL. 597-605, DATED BANGALORE, 4TH OCTOBER 1902.

ORDER THEREON.—The Comptroller, Mysore Government, states that the establishment of salaried stamp vendors in the State having been abolished under the orders conveyed in Government Proceedings No. FL. 926-34, dated 8th January 1902, and the licensed vendors being, under the present rules, not empowered to sell stamps of higher value than Rs. 25, unnecessary extra labour has devolved upon the Treasuries; and proposes in consequence that the minimum limit of Rs. 25 prescribed for the purchase of stamps by licensed vendors be raised to Rs. 50.

2. Para 3 of Circular No. 807, dated 29th September 1870, quoted by the Comptroller does not lay down that a private vendor may not sell a stamp of more than Rs. 25. Government presume, however, that the limit is being actually observed. Agreeing that public convenience will be served by raising the limit, Government direct that Rule VII of the above rules, which by implication lays down Rs. 50 as the limit, be uniformly observed, and that only single stamps of Rs. 50 or more be sold to private parties in the Treasuries.

MUZRAI

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Correspondence ending with the following letter No. 262, dated 13th March 1902, from the Deputy Commissioner, Mysore District, reporting on the missing pearls, padakas, etc., of a real pearl necklace (deposited in the Gundlupet Taluk Treasury) belonging to the Sri Himavat Gopalaswami temple in the Gundlupet Taluk:—

1. With reference to the Proceedings of Government No. 730, dated the 23rd November 1901, and your docket No. 1373—29-93, dated 6th March 1902, I have the honor to forward herewith a memo, submitted by Mr. Mahomed Jaffer, Assistant Superintendent of Police, who had been deputed to inquire into the matter of the missing pearls, etc., of a pearl necklace belonging to the Sri Himavat Gopalaswami temple in the Gundlupet Taluk, together with the original record of the inquiry, and the explanations since obtained from Amildar Guru Rao and Sheristadar Mahomed Khan through the respective Deputy Commissioners of Tumkur and Kadur.

2. From the record of the inquiry it will be seen that the pearl necklace consisted of 318 pearls in 7 *ladis*, and 7 padakas set with rubies and emeralds, that 3 of the *ladis* are in fact, that 2 full *ladis* and 2 half *ladis* consisting of 105 pearls and 2 padakas are missing, that 2 *ladis* made up of false pearls, have been substituted for the latter, and that these two *ladis* bear marks of having been forcibly detached or torn from the necklace.

3. I have seen the necklace, and am of opinion that the present market value of the pearls may fairly be taken to be Rs. 5 each, and of the padakas Rs. 12 each. The loss sustained, therefore, is $(105 \times 5) = \text{Rs. } 525$ plus Rs. 24 (value of 2 Padakas), or in all Rs. 549.

4. I have gone over the record of the inquiry, and, for reasons which shall be presently given, I agree with Mr. Mahomed Jaffer that there is no sufficient evidence to render any official accountable, in a judicial trial, for the loss sustained.

5. The question then for consideration is who is accountable for the loss, viewing the matter as a case of simple bailment. There is no doubt that the necklace was allright when in March 1900 it was given out, or taken out, for repairs by Amildar Guru Rao, on his own responsibility. (See exhibits C and D) The note made by Mr. Guru Rao on exhibit C shows that the jewel, along with others, was repaired and returned to the Treasury on the 17th idem. On the 22nd of the same month the necklace was given out to Parpategar Tirumalachar for use in the temple, and he in his turn made it over to the temple Shanbhog Ramanna (since deceased) on the 24th (see exhibit A). The jewel along with others was returned to the Treasury on the 30th idem, and the note made on exhibit A by Sheristadar Mahomed Khan shows that the articles as per list A were received back at the Treasury. Subsequent to the 30th of March, the necklace does not appear to have ever been removed from the Treasury. It follows therefore that the necklace must have been tampered with either when taken out for repairs, or when given out to Parpategar Tirumalachar and by him to Shanbhog Ramanna (deceased) for use in the temple. Ramanna being dead, his evidence is not forthcoming. Tirumalachar is an old man, and is, in my opinion, morally incapable of tampering with the jewel. Nor could he or the deceased shanbhog have had sufficient opportunity to do so even if they were so inclined. It seems to me, therefore, highly improbable that the jewel was tampered with when given out to them for use in the temple.

6. The facts connected with the repairs, however, are very unsatisfactory, if not highly suspicious. The Amildar on his own responsibility undertook to have the necklace repaired, and went out of his way in collecting, by subscriptions, gold required for the repairs. He failed to report the matter to this office. The lists C and D in book No. 35 purport to show that the jewels (including the pearl necklace) which needed repairs had been entrusted to Bank Agent Ramakrishnaiya and Parpategar Tirumalachar, but both of them deny having taken charge of the jewels. They say that the Amildar Guru Rao himself got the repairs executed in a *Thotte* near his bath-room, but he denies having had charge of the jewels when under repairs, although he reluctantly admits that the repairs were executed in the house he occupied. According to the evidence on this point the repairs took nearly a week to complete, and the Amildar could not have been present throughout the execution of the repairs, and so he must have left the supervision to somebody else. The evidence points to shroff Subbanna as the person whom the Amildar used to trust even with the keys of the Muzrai box; and having regard to the conduct (both antecedent and subsequent as noted by the Assistant Superintendent in his memo) of this Subbanna, I suspect that he had a hand in the matter of tampering with the necklace. The fact that the gold wire with which the false pearls are strung together is precisely of the same quality as that with which the good pearls are strung gives rise to a strong suspicion that the goldsmith and Subbanna must have colluded together.

7. After the repairs had been completed and the necklace returned to the Treasury, I do not believe that it was ever examined and checked with reference to the details as to the number of ladis, pearls, padakas, etc. Nor was it possible to detect at a glance the substitution of false pearls which bear a close resemblance to the genuine pearls in the necklace. It is no wonder, therefore, that the substitution of false pearls escaped detection when the jewel was returned to the Treasury not only after repairs but on the 30th of March 1900.

8. After the 30th of March 1900, the first time the box containing temple jewels was opened was on the 16th October 1901, when sheristadar Nanjundaiya took charge in consequence of Amildar Guru Rao's transfer to Kunigul. From Guru Rao's explanation it is clear that he did not formally hand over charge of the jewels to Nanjundaiya. The latter was comparatively new to the Taluk and had never before seen the jewels. After the day's work was over, and in lamp-light he went through the form of taking charge of the jewels in the absence of Guru Rao, without closely examining or checking them in reference to the original list, although he had Parpalegar Tirumalachar and certain others to assist him, for neither he nor they least suspected that there was anything wrong.

9. As to when the two ladis of false pearls were detached there is no evidence. The circumstances give rise to a suspicion that it must have been done by the shroff who had access to the box when it was kept in the Treasury room detached from the big box in the course of removal from the old to the new Taluk Cutcherry.

10. The account book No. 36 shows that just after his transfer, and before leaving the station, Amildar Guru Rao made a valuable present to the temple in the shape of a 'Pitam-bara' in discharge of a vow. Having regard to this fact, and to his position in life, I cannot bring myself to believe that he was a party to the tampering with the jewel. I cannot at the same time acquit him of blame in that he had unauthorizedly taken out the necklace and had it in his house for nearly a week, without taking due precautions against tampering, and in that he failed to formally examine and hand over the jewels to Sheristadar Nanjundaiya when the latter relieved him. I would, therefore, beg to recommend that Amildar Guru Rao be directed to make good the loss sustained, viz., Rs. 549.

11. Sheristadar Nanjundiah must also be held to blame for the most perfunctory manner in which he conducted his examination of the jewels when he took charge. If the appearance of the false pearls was misleading he had absolutely no excuse for overlooking the deficiency in the number of the ladis and of the padakas. The evidence on the record, however, shows that the necklace is in the same condition as it was when he for the first time took charge, and so he could not have had anything to do with its tampering. But a man who was so culpably careless in such an important matter is in my opinion unfit to continue in service as sheristadar, and I have the less hesitation in recommending his immediate retirement on pension, as he has completed 56 years of age, and has been given an extension of service up to the end of the current official year.

12. As to Nanjundaiya's private box having been deposited in the Muzrai big box in the Treasury, it is in evidence that he had done so with the knowledge and consent of the Amildar at a time when, owing to the prevalence of plague, he lived in a shed and when that shed had been broken into by thieves, and that the box was subsequently returned to him by the present Amildar after an examination of the contents. No inference adverse to him can therefore be drawn.

Shroff Subbanna is shown to have had access to the Muzrai box. He denies it *in toto*, although his predecessor Krishnappa (retired) admits that he was dealing with the Muzrai jewels. His movements after the discovery of the fraud have been suspicious. His private character is reported to be not good. In these circumstances I have thought it unsafe to continue him as shroff. He will be dealt with suitably.

I regret the delay in submitting this report, due mainly to the fact that it took nearly two months to obtain the explanation of Amildar Guru Rao.

No. 829-39—Muz. F. 29-93, DATED BANGALORE, 29th OCTOBER 1902.

ORDER THEREON.—With reference to the above, the Government observe that, except the irregularity imputed to Mr. Guru Rao of having taken the temple jewels to his house for repairing them, which, however, he does not admit, Government do not see how he can be held accountable for the missing pearls. It is not denied that on one occasion shortly after this event (the respective dates being the 17th and the 22nd of March 1900) the said jewels were taken out of the Treasury and brought back after use in the temple. If on this occasion any defect was discovered, it is unreasonable to connect the loss with a prior event and hold the Amildar (Mr. Guru Rao) liable for it.

2. The facts collected in the enquiry, which, it must be remarked, was unnecessarily protracted, do not enable Government to say with certainty, when and how the loss occurred. But, there is no mitigation of the serious and gross carelessness on the part of Nanjundaiya, Taluk Sheristadar, who received the charge of this jewel from the Amildar, Mr. Gurn Rao, on the eve of his leaving the Taluk on transfer. He unnecessarily delayed the examination, and when actually conducting it, he showed himself most perfunctory and incapable. He was not able to see the jewel himself. He did not handle it. He did not even take the trouble of seeing that everything was as it was represented to be by Tirumalachar, an old Parpategar, and Muzrai Gumasta Subbanna, both of whom do not appear to be trustworthy or beyond reproach. But the fact remains that the jewel continued in the custody of Nanjundaiya till it was inspected again by Amildar Mr. Gopalakrishna Iyengar. There is no suggestion that this jewel had been taken out of the Treasury room, although before the transfer of the charge it is said that, on account of the difficulty to remove the big box, the small Muzrai box had been kept alone by itself in the Treasury room. The situation then is this:—There is no clear information as to when the jewel was tampered with. Nanjundaiya received charge of it without any demur and when he handed it back to Amildar Mr. Gopalakrishna Iyengar, the defect was found out and from the jewel had been abstracted good pearls and other articles worth Rs. 549. There can be no question as to the liability of Nanjundaiya to account for the loss thus caused in his charge, and this is the least punishment that he can be subjected to. The Government therefore direct that the value of the present loss be recovered from Sheristadar Nanjundaiya. In regard to the Deputy Commissioner's recommendation to retire him from service on account of his old age and inefficiency, separate orders will be issued.

3. Parpategar Tirumalachar and Muzrai Gumasta Subbanna, who were handling these jewels and who have not chosen to give or obtain information regarding the true origin of this case must, the Government direct, be dismissed the service.

4. The Government further direct that better care must be taken of the Muzrai jewels, and when Assistant Commissioners and other officers inspect Taluk Treasuries, they must invariably inspect the valuable property of the temples also.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR OCTOBER 1902.

Serial No.	Proceedings.			Subject and Order.
	No.	Date.	To whom sent.	
1	128-S.	3	First Assistant to the Hon'ble the Resident.	Suggesting that the Hon'ble the Resident may be pleased to permit the procedure which has been laid down for the import of explosives by licenses under Rule 18 (Form E) of the Mysore Explosives Rules, to be extended to the import of explosives by licenses under any of the other Forms prescribed in the Explosives Rules, and that his requisition for lists of licenses granted under Rule 18 may be waived, as in cases of applications for import of explosives, the production of the license itself by the applicant is a sufficient guarantee that he has been licensed.
2	129-S.	3	Do	Informing him, with reference to his letter No. 3715, dated 10th July 1902, that the license, No. 1 of 1902, granted by the District Magistrate of Bangalore to Messrs. Parry & Co., Agents for the Carbonite Syndicate, Limited, for the possession of certain explosives, has been duly revised, and forwarding a copy of the revised license.
3	130-S.	3	Do	Forwarding three copies of the Report of the Chief Inspector of Explosives in Mysore for the year 1901, and requesting to be furnished with any available information in regard to the suitability of the provisions of the Rules of the Government of India corresponding to Rule 9 of the Mysore Explosives Rules, and with a copy of the report to be submitted to the Government of India by their Chief Inspector of Explosives on the provisions of the Rules.
4	152-S.	4	Do	Forwarding three copies of the Report of the Chief Inspector of Mines in Mysore for the year 1901.

5	153-S.	4	First Assistant to the Hon'ble the Resident.	Forwarding, in continuation of this office letter No. 38-S., dated 22nd July 1902, a list of licenses since granted by the Government of Mysore in Form E of the Mysore Explosives Rules, to possess specified explosives during the calendar year 1902.
6	154-161-S.	$\frac{3}{4}$	District Magistrates ...	Inviting their attention to the Report of the Chief Inspector of Explosives in Mysore for the year 1901, and requesting to be favored with their views on certain points raised therein.
7	162-S.	$\frac{3}{4}$	I. G. of Police ..	Forwarding a copy of the above with a request to be favored with his views in the matter.
8	163-S.	4	First Assistant to the Hon'ble the Resident.	Forwarding a statement showing the quantity and approximate value of bar gold produced in the Mines in Mysore during the month of August 1902.
9	164-S.	7	Messrs. Markby Stewart & Co., 57, Coleman Street, London, E. C.	Informing them, in reply to their letter of the 29th August 1902, on the subject of Mr. Randolph H. Morriss' application for prospecting licenses in the Tumkur and Chitaldrug Districts, that, for reasons stated, it is not desirable to extend the period for which licenses are granted to two years, that clause 10 of the licenses has been added to as suggested and that the time within which operations should be commenced has been altered to six months, and forwarding two draft licenses, with a request that they may be returned to this office with the prescribed fee of Rs. 500 for each license.
10	165-S.	13	Secy., Jayamangalam Syndicate, Limited, London.	Acknowledging receipt of his letter dated 10th September 1902, and informing him, with reference to the explanation that he holds £1,000 worth of shares in the Jayamangalam Syndicate in the name of the Government of Mysore, that there is no record in this office of the Block having been sold or assigned by the original lessees and that the Government are unable to regard the assignment, if there has been one, as complete, or the fine as having been paid, as they have not had an opportunity of exercising the option reserved under the terms of the lease of accepting the fine on assignment either cash or shares.
11	167-S.	16	Supt., Rev. Survey ..	Forwarding, as requested, 12 copies of forms of schedule of lands comprised in mining blocks for which leases have been applied for.
12	205-S.	23	Secy., Jayamangalam Syndicate, Limited, London.	Acknowledging receipt of his letters of the 25th and 30th September 1902, together with an application for mining leases of two blocks of land in the Kolar District and the

14	207-S.	24	First Assistant to the Hon'ble the Resident.	Informing him, in reply to his letter No. 307, dated 18th October 1902, that under the circumstances represented by the Superintendent of the South Amble Mine, he may be permitted, as a temporary measure, to possess 500 coils of fuse in addition to the quantity he is licensed to possess, and stating that he will be so good as to report for the information of Government, when the surplus stock has been disposed of.
15	208-S.	28	Do	Forwarding, as desired, copies of letters from and to the Hon'ble Mark Francis Napier, dated 17th July and 21st August 1902, regarding the acquisition of certain lands from the Gold Fields of Mysore, Limited.
16	209-10-S.	28	Comptr. and Mr. E. W. Wetherell.	Forwarding, as desired, five more copies of the Report of the Chief Inspector of Explosives in Mysore for the year 1901.
17	211-S.	29	Mr. J. Inglo, care of Mr. Haji Ismail Sait, Bangalore.	Stating that the Government are of opinion that Article 101 (b) of the Mysore Service Regulations should be applied in calculating Mr. Wetherell's salary when he was confirmed as 2nd State Geologist and Assistant Secretary to Government in the Geological Department; and allowing Mr. Wetherell to draw any arrears he may be entitled to under the above article.
				Acknowledging receipt of his application, dated 28th September 1902, for a mining lease over a block of land in the Bowringpet Taluk and the crossed cheque for Rs. 1,000, and informing him that the application will be taken into consideration in due course on the publication of the revised terms for the grant of mining leases.
